

# We provide turnkey network security solutions.

PRIVATE NETWORK | MILITARY GRADE ENCLOSURES | DEVICE TRACKING

Our secure network governs all functions of inmate tablets, employing content filtering technologies and 24x7 live-agent monitoring. The APDS network was approved as having “no vulnerabilities” by white-hat hacking firm Coalfire Technologies, and our tablets have seen over 4 million hours of inmate usage with no digital or physical security threats.

**BEST-IN-CLASS TECH PARTNERS:**

**Customize your content:** APDS amplifies existing learning solutions and facilitates new programming options through our diverse content partners.

**981 75H-CB**

K-20 Accreditation & equivalency

**TESTIMONIALS:**

“NYC’s Department of Correction is utilizing APDS tablets to reinforce its 14-point anti-violence reform agenda, which prioritizes the advancement of educational opportunities and the promotion of safety via idleness reduction activities.”

**DEPUTY COMMISSIONER WINETTE SAUNDERS, NYC DOC**

“The APDS tablets allowed us to provide access to enhanced learning opportunities, increased access to library books, increased communication among students/trusted adults, and opportunities to reward students for successful outcomes. We are thrilled with our partnership with APDS.”

**DR. SUSAN LOCKWOOD, IN DOC DYS**
